

WHAT MY SEED FAITH IS NOT.

My Seed Faith prioritizes community and spiritual growth by stepping away from a few conventional standards:

My Seed Faith is not focused on traditional agricultural scale.

This means the size of a garden is never the measure of success. Whether it is a single raised bed, a large plot or a few containers, every space has value.

My Seed Faith is not driven by generating revenue.

Money is neither a measure of success nor a barrier to this programming. The true mission is to build faith in God and nurture spiritual growth.

My Seed Faith does not limit learning to academic or institutional expertise.

Valuable skill-building and growth in faith can happen anywhere people gather to learn. As first Corinthians 8:1 says, “We know that we all possess knowledge, but knowledge puffs up while love builds up.”

WHAT IS

My Seed Faith is a network of people and places using gardening and farming to learn about growing Christian faith while developing practical gardening, farming and horticulture-related skills.

MY SEED FAITH

GROWING FOOD THAT GIVES LIFE.
